Response to Arguments

Applicant's arguments filed 3/13/08 have been fully considered but they are not persuasive. The Examiner's reasons for restriction/election are maintained for the reasons cited in that requirement.

Allowable Subject Matter

Claims 1, 3-7 and 16 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not show nor fairly suggest **a piezoelectric single crystal having the claimed molar ranges and lead substitution element (calcium) claimed**. None of the prior art notes use of single crystal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patent 5,275,988 notes all aspects of the invention except a single crystal structure, as does US 2004/0087432.

This application is in condition for allowance except for the following formal matters:

Cancellation of non-elected claims is required.

Art Unit: 2834

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
